Summary

React Native Mobile Developer and **App Lead at CSI ACE Committee**, with internship experience shipping production features end-to-end, including **native Android/iOS code** and **Firebase** services. Strong foundation in modular architecture, REST API integration, state management, and performance-optimized mobile user interfaces, along with **React.js** web development experience.

Work Experience

Sugamaya Governance LLP — Mobile App Developer Intern Dec 2025 – Mar 2026

- Developed production-ready mobile features using **React Native (Expo + TypeScript)** following a scalable **feature-based architecture**.
- Implemented secure authentication workflows, user profile systems, and reliable **REST API integrations** for dynamic mobile functionality.

Fitistan — React Native Developer Intern Jun 2026 – Sep 2026

- Built the **Custom Challenges module** end-to-end, from screen design to core logic, and wrote **native Android/iOS code** for platform-specific functionality.
- Worked on **Firebase Cloud Messaging** and **Analytics**, and led the migration of all in-app text to **Firebase Remote Config** for updates without app releases.

Projects

Charcha — Video Streaming Platform

React Native (Expo) • TypeScript • TanStack Query • Redux

- Built a feature-rich **mobile video streaming platform** with optimized playback, gesture-driven interactions, and smooth UI rendering.
- Designed client-side data architecture with **TanStack Query and Redux** for state management, caching, and API sync.
- Implemented advanced engagement features including **short-form video feeds, nested comment systems, deep linking navigation, and video upload workflows**.

NexiAstro — AI Astrology Mobile Platform

React Native (Expo) • TypeScript • Next.js API Routes

- Designed scalable **React Native UI architecture** with reusable components and structured navigation.
- Integrated astrology APIs by constructing validated payloads using **DOB, birth time, geolocation coordinates, and timezone offsets**.
- Developed personalized features including **AI-generated life reports, compatibility analysis modules, astrology calendars, and AI chatbot interactions**.

CSI ACE Website — Official Portfolio (App Lead, 2026–27)

Next.js • JavaScript • Tailwind CSS

- Developed the official **CSI ACE chapter website** with reusable **Next.js components** and a fully **responsive** layout.

Education

2024–2028	**B.E. Computer Science and Engineering**, Atharva College Of Engineering	(CGPA: **8.75**/10)
2024	**HSC**, Patkar Varde College	(84.33%)
2022	**SSC**, Nirmala Niketan High School	(78.80%)

Skills

Tech Stack:	JavaScript, TypeScript, **React.js, React Native, Expo, Next.js, Tailwind CSS**, HTML, CSS
Firebase:	Cloud Messaging (FCM), Analytics, Crashlytics, Remote Config
Mobile & State:	Native Android/iOS, Push Notifications, Redux, TanStack Query, REST APIs
Programming:	C, C++, Java
Tools:	Git, GitHub, VS Code, Android Studio, Android Emulator
Languages:	English, Hindi, Marathi
